DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kevin Spival at (202) 955-7007 on 06/28/07 and 07/18/07.

The examiner amendment as follow:

Claims 16 and 23 are cancelled.

Claim 1. A telecommunication module directly connected to a wireless mobile communication network, comprising:

a system data processor for performing at least one telecommunication activity, the at least one telecommunication activity being exclusively limited to at least one of creating, setting up, implementing, monitoring and terminating a telecommunication connection with the wireless mobile communication;

a control data processor that is logically separated from the system data processor, said control data processor automatically executing at least one control instruction sequence stored in the telecommunication module, the at least one control instruction sequence being implemented such that, upon execution, the at least one telecommunication activity is initiated; and

a connector for further connecting the control data processor to an external electronic device; wherein

the at least one control instruction sequence contains of at least one Java 2 MicroEdition byte code instruction and at least one BASIC instruction.

Claim 21. A method for controlling a telecommunication module directly connected to a wireless mobile communication network, the method comprising:

providing that the telecommunication module include a system data processor for performing at least one telecommunication activity, the at least one telecommunication activity being exclusively limited to at least one of creating, setting up, implementing, monitoring and terminating a telecommunication connection with the wireless mobile communication network;

providing that the telecommunication module include a control data processor that is logically separated from the system data processor;

providing that the telecommunication module include a first connector for connecting the telecommunication module to an external electronic device;

providing that the telecommunication module include a second connector for connecting the control data processor to the system data processor;

storing at least one control instruction sequence in the telecommunication module; and

automatically executing the at least one control instruction sequence stored in the telecommunication module such that the at least one control instruction sequence

Art Unit: 2617

initiates the at least one telecommunication activity of the system data processor;
wherein the at least one control instruction sequence contains of at least one Java 2
MicroEdition byte code instruction and at least one BASIC instruction.

Allowable Subject Matter

2. Claims 15, 17-22, 24-29 are allowed
3. The following is an examiner's statement of reasons for allowance:

Accordingly, Applicant's claims are allowed for the reasons recited in examiner amendment and in the Amendment/Argument after Notice of Appeal file on 04/03/2007.

Conclusion

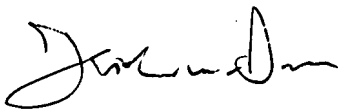

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
